

1, Types of mediums ?

Radio Frequency - wireless 📶

Electrical Signal - wired - copper cable .

Light Signals - wired - Fiber Optic Cable .

2, Write down switch 8-pins ?

1 +R - Recv

2 -R -

3 +T

4 -T

5 +V

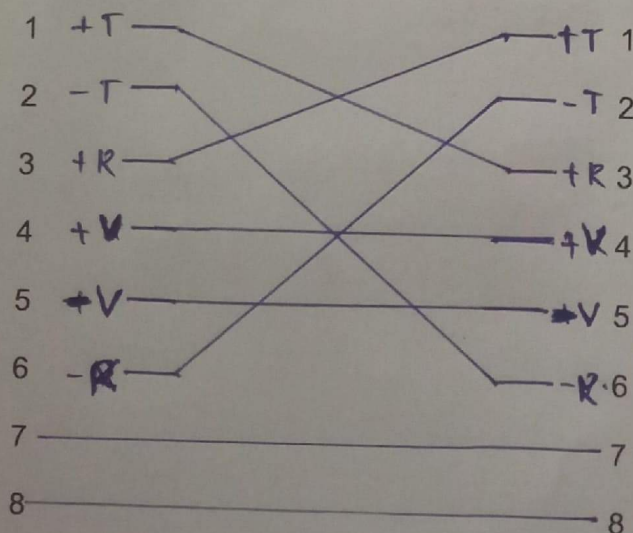

6 -V

7 } Reserved for future Upgrade .

8

3, Connect utp cable between two devices

Cross Cable .

4, Explain AUTO MDIX ? Automatic Medium Dependent Cross Over.

It is fast Ethernet feature that automatically detects how device are connected and internally swaps the transmit and Receive wire pairs if necessary.

5, Explain POE injector ?

6, Explain POE switch ?

7, Explain types of nic & function ?

01. Wired NIC : It convert Binary Signal into Electrical & Electrical Signal into Binary Signal.

~~Ex:~~ Copper

02. Wireless NIC : It convert Binary Signal into Radio frequency & Radio frequency into Binary Signal.
